

Prepare, then Combat, on a map you grow by stepping off its edge

Designer diagram sheet: the table, the round, what is settled, what older rules still fill in, what is still to be designed

A1-L1

2026-10-05

BASE TILE: 7 hexes.

All of it is the base.

Base health 20.

FIGURES: 1 per hex.

1 to 4 players start on base hexes. No enemy is on the table at setup.

GATHERING NODE: Gather 2 takes

2 materials; the node is spent.

COUNTRYSIDE TILE: top of the deck, green back.

SPAWN NODE: 1 grunt every Combat, after the enemies move. A new tile's enemies arrive next Combat.

TILE DECK: 3 countryside on 5 core, both shuffled. No other tile is out at setup.

STEP OFF THE EDGE: pay 1. The top tile covers this hex. You may keep moving.

GRUNT (round): health 2, hits 2.

ELITE (square): health 14, 6 dice; core tile centre, every Combat.

LAKE, MOUNTAIN: no figure or enemy may enter.

DETAIL: ONE CARD, TWO HALVES, TWO PHASES

PREPARE

top halves up; draw 3; play or discard

COMBAT

shuffle discard; bottom halves up; draw 3

roll, keep, reroll: up to 3 rolls; each die and Skill once

THE ROUND

PREPARE

top halves: move, gather, build, rest; step off the edge

COMBAT

enemies move up to 2, structures first; spawn; Tower fire; exchanges

ROUND END

discard pile top halves up; round +1; milestones

SETTLED (CURRENT RULES)

- Round: Prepare, then Combat; no Explore phase; deck played twice
- Starter deck 10: 4 Move 2, 4 Gather 2, 1 Build, 1 Rest; hand 3
- Base health 20; player health 15, 1 die, 4 starter Skills
- 1 to 4 players; shared experience; +1 die per level
- Base at 0 ends the run; score: rounds + milestones; knockout: return next round

OLDER RULES STILL FILL IN

- Supply cards, placeholder Skills, enemy and dice tables, Barricade and Tower, the draft

TO BE DESIGNED

- open** tile set; knockout values; elite structure damage; Skills, tiers, caps; Build versus Repair; co-op heal targets; milestone set; experience curve; win scenarios; supply Gather totals; lake or mountain under a reveal; round-end shuffle

EVIDENCE

- 200 trial runs of the digital prototype, interim rules: median end round 5; to be re-measured.

COMPARABLES

Spirit Island: shared-board co-op; here the board grows off its edge.

Quacks of Quedlinburg: push your luck; here up to 3 rolls onto Skills.

Carcassonne: tile-laid map; here each tile brings nodes and a spawn node.

Survival Dice-Builder

Designer lens: settled, older-rule fill-ins, open

A1-L2

PLAYERS / AGE / TIME

1 - 4 PLAYERS	? AGE: NOT STATED	? TIME: TO BE MEASURED
------------------	-------------------------	------------------------------

Trial runs (digital prototype, interim rules): median end, round 5.

top half up in **Prepare**

bottom half (upside down) in **Combat**

COMPONENTS IN THE BOX

- 9 tiles: 1 Base, 3 countryside, 5 core
(more to be designed)
- Per player: board, figure, 1 action die, 4 starter Skills, 10 cards: 4 Move 2, 4 Gather 2, 1 Build, 1 Rest
- 28 supply cards (14 kinds, 2 each); 14 Skills
(placeholders)
- Base board
- Grunt and elite miniatures: count not stated
- Dice, tokens: count not stated
- Older rules fill in: card, Skill, enemy and Tower values; the draft; 90 minutes.

GAME SUMMARY

Beginning. Base tile only; steps off the edge reveal tiles. **Middle.** Every Combat each spawn node spawns; enemies close on structures. **End.** Base health 0 ends the run; score rounds survived plus milestones; no win condition yet.

GAME OUTLINE

Setup

Base tile only, all 7 hexes the base, no nodes. Tile deck: shuffled countryside on shuffled core. Base health 20. Per player: health 15, 1 die, 4 Skills, 10 cards top halves up. No enemies.

PREPARE

Draw 3; play a top half or discard, until the deck is gone. Move costs 1 a step, 2 beside an enemy; stepping off the edge reveals a tile for 1 and you may keep moving. Gather spends its node. Build: upgrade or defense (Repair split to be designed). Rest heals. Enemies stand still.

COMBAT

Shuffled discard pile, bottom halves up. Enemies move up to 2 hexes toward the nearest structure; every spawn node spawns. Until the deck is empty: draw 3, roll up to 3 times, play bottom halves, enemies targeting you attack. Enemies beside no figure hit a structure.

Round end

Discard pile becomes the deck, top halves up, unshuffled (older rule). Even rounds with Training open: Skill draft. Round +1; check milestones (set under review). Knocked-out figures return; health (to be designed).

UNIQUE SELLING POINTS

- Prepare then Combat: one deck, both halves.
- Each level gives everyone a die.
- Your steps lay the map.
- Enemies hunt structures; you are bait only when at least 2 hexes nearer.

COMPARABLE BOARD GAMES

- **Spirit Island:** co-op defense; here steps lay the map.
- **Quacks of Quedlinburg:** push your luck; here, three dice rolls.
- **Carcassonne:** tile laying; here your step reveals the tile.

Survival Dice-Builder

Lay the land with your steps; hold it with dice.

A1-L3
2026-10-05

1 - 4

PLAYERS

not stated

AGE

about 90

MIN TARGET, TO BE MEASURED

PREMISE

Survivors hold a broken village on a map that exists only where they step. One deck, played twice a round: top halves in **PREPARE**, bottom halves in **COMBAT**; no Explore phase.

HOW YOU WIN, HOW YOU LOSE

No win yet: the run ends at base health 0. Score: rounds survived plus milestones.

Every spawn node on every revealed tile spawns every Combat: land is the push-your-luck.

Settled

Hand of 3. Base health 20, player health 15. Stepping off the map edge reveals a tile for 1; keep moving. A gathered node is spent. In Combat enemies move up to 2 hexes, structures first.

Older rules fill in

Card, Skill, Tower, enemy values; 90-minute target.

To be designed

Tile set, knockout values, real Skills, milestones, elite structure damage, heal targets, Build versus Repair, win scenarios, experience curve.

WHY IT SELLS

Spirit Island meets The Quacks of Quedlinburg: co-op map defence; push-your-luck in Combat.

Carcassonne meets Dice Throne: your steps lay the map; the fight is dice on Skills, together.

Designer contact: placeholder.

The Round

Feature sheet, Designer lens.

A1-L4
2026-10-05

One deck pass shapes the table, one survives what it sends back.

KEY BEATS

- PREPARE** No Explore phase: step off the map edge, reveal a tile for 1, keep moving.
- PREPARE** A gathering node is spent when gathered.
- COMBAT** Enemies move up to 2 hexes, structures first; every spawn node spawns.
- COMBAT** Exchange: draw 3, up to 3 rolls, dice on Skills, enemies hit back.
- COMBAT** Deck empty: each enemy with no player beside it hits an adjacent structure once.

FEEL

Tension	■ ■ ■ ■ □
Downtime	■ ■ □ □ □
Table talk	■ ■ ■ □ □
Luck	■ ■ ■ □ □
Planning	■ ■ ■ ■ □
Designer's estimate, to be measured.	

Fixed numbers

1 to 4 players. Base health 20, player health 15, 1 action die to start, hand of 3. Deck 10: 4 Move 2, 4 Gather 2, 1 Build, 1 Rest. Base at 0 ends the run; score: rounds survived plus milestones.

EXPECTED STRATEGIES

- Hold the base:** stay on the Base tile, buy upgrades, fight.
- Build outward:** reveal and gather early; Towers pull enemies away.
- Hunt:** stand at least 2 hexes nearer than any structure, take currency, level into dice.

INTENDED EMOTIONS

- PREPARE** Calm: a still map; where do 10 cards go?
- COMBAT** Pressure: new enemies on every node; dice may miss.
- ROUND END** Relief: milestones tallied, bigger deck.

PERCEIVED VERSUS REAL DIFFICULTY

Feels hard: the base siege; an elite's 6 dice.

The numbers say: trial runs of the digital prototype before knockout, spawn every Combat and structures first: median end round 5, 199 of 200 ended by the player falling (older rules: round 14). Not a verdict.

The gap: the table watches base 20; those runs lost player 15 first.

Settled: deck 10, hand 3, Prepare then Combat, edge reveal, spent nodes, structures first, spawn every Combat, knockout.

Older rules fill in: skirmish, structure damage, Tower values.

Open: knockout values, elite structure damage, Build versus Repair, experience curve, milestone set, round-end deck turn.

Survival Dice-Builder: Pillars

Designer sheet: settled versus to be designed

A1-L5
2026-10-05

1 to 4 at one table each play their deck twice a round: top halves in **PREPARE**, bottom halves with dice in **COMBAT**, until the base falls.

PILLARS

Two-faced deck

No Explore phase: a round is Prepare, then Combat.

Push the edge

Step off the edge: a tile for 1, keep moving. A gathered node is spent.

Base as clock

Enemies move up to 2 hexes in Combat, structures first; the run ends when the base reaches 0.

CORE LOOP

TARGET PLAYER

1 to 4 at one table, hands open; solo too.
Wants a die per level.

COMPARABLES

- **Spirit Island**: co-op map defence, but this map exists only where you stepped.
- **Dice Throne**: dice on skills, but co-op, not duels.
- **Carcassonne**: tile laying, but the tile covers the hex you step into.

SETTLED

- Hand of 3; base 20; player 15; 1 die
- No enemy at setup; every spawn node spawns every Combat
- Knockout: return to base
- Score: rounds survived plus milestones

TO BE DESIGNED

- Tile set
- Knockout values
- Elite structure damage
- Co-op heal targets
- Real Skills, caps
- Build versus Repair
- Milestones, experience curve
- Scenarios with a win condition
- Round-end deck turn without a shuffle: to confirm

Old rules fill in skirmish and structure damage.

PRINT-AND-PLAY KIT

- 9 tiles: 1 Base, 3 countryside, 5 core
- 10 starter cards each: 4 Move 2, 4 Gather 2, 1 Build, 1 Rest
- 28 supply cards: 14 distinct, 2 copies each
- 14 supply Skills plus 4 starter Skills each
- Dice, tokens: counts not stated

FIRST PLAYABLE

One timed solo run at a real table; no table timing exists.

RISKS

RISK	IMPACT	HOW A PLAYTEST DETECTS IT
Runs end too early: interim digital trial runs end at median round 5.	Round 10, 15, level 5 out of reach.	Log end round and cause.
Spawning every Combat hits the 20-miniature limit.	Grunts near the base become 6-dice elites.	Count miniatures after each Combat.
Placeholder Skills, open experience curve.	Dice arrive too late or too fast.	Record the round of each level and draft.

One round: Prepare, then Combat

Co-op survival for 1 to 4 players; the map grows as you step off its edge.

A2-L1

2026-10-05

HOW A ROUND GOES

- **The base.** 7 hexes, health 20; you start on one, health 15.
- **Your deck.** 10 cards: 4 Move 2, 4 Gather 2, 1 Build, 1 Rest; hand of 3.
- **Prepare, top halves up.** Move, gather, build, rest; enemies stand still.
- **Combat, bottom halves up.** Enemies move up to 2 hexes, then every spawn node spawns.
- **Each exchange.** Draw 3, roll all dice, 3 rolls at most, play bottom halves.
- **Dice on Skills.** Each die once, each Skill once; damage needs an enemy in range.
- **What hurts.** Grunt 2, elite 6 dice; guard first, then health; 0 = knocked out.
- **How it ends.** Base at 0; score = rounds survived + milestones.

FEELS LIKE

Carcassonne lays tiles; here stepping off lays one.

Quacks of Quedlinburg pushes luck; here, your hex at Combat.

Dice Throne chases combos; here dice land on Skills.

(to be designed): knockout, Skills, tiles, milestones.

Push your luck here

The third roll. Two rerolls at most; Rest rerolls all.

Step off with enemies about. No moving in Combat.

Spend a node. One gather, then gone.

Survival Dice-Builder

Co-op survival on hex tiles

A2 - L2
2026-10-05

PLAYERS / AGE / TIME

1 - 4 PLAYERS	not stated AGE	to be measured TIME
------------------	-------------------	---------------------------

COMPONENTS IN THE BOX

- 9 map tiles of 7 hexes: 1 Base, 3 countryside, 5 core
- Per player: board, figure, 10 starter cards, 4 starter Skills
- 28 supply cards; 14 supply Skills; base board, experience track, round counter
- Action dice, Barricade, Tower, material, currency tokens (counts not stated)
- Enemy miniatures, grunts and elites (count not stated)

GAME SUMMARY

Beginning. One Base tile, your figure there, no enemy; base 20 health, you 15, one die, ten cards.

Middle. Reveal tiles, gather, build; each new tile spawns enemies every Combat; levels add dice.

End. Base at 0: run over. Score rounds survived plus milestones.

GAME OUTLINE

Setup. Base tile out, health 20. Shuffled countryside on shuffled core tiles. Each player: a base hex, health 15, one die, four starter Skills, 4 Move 2, 4 Gather 2, 1 Build, 1 Rest, shuffled, top halves up.

PREPARE Draw 3; play a top half or discard it; redraw until both are empty. A step costs 1, or 2 onto a hex beside an enemy; onto an enemy is a skirmish: one roll, Skills only. Off the edge reveals a tile for 1; keep moving. Gather spends its node. Build a Barricade, Tower, or base upgrade. Rest heals 2. Enemies stand still.

COMBAT Shuffle the discard pile; bottom halves up. Enemies move up to 2 hexes toward the nearest structure, or you if 2 or more hexes closer. Every spawn node spawns. Towers fire. Until the deck is empty: draw 3; roll, keep, reroll, up to 3 rolls; play bottom halves; put dice on Skills; covered Skills fire. Enemies beside you targeting you hit back (grunt 2, guard first). Nobody moves. Enemies away from players hit a Barricade, Tower, or base.

Round end. Turn the discard pile top halves up: next deck. Even round, Training Ground open: draft a Skill. Count the round, check milestones. Knocked-out figures return to base. To be designed: final tiles, knockout rules, real Skills, milestones.

UNIQUE SELLING POINTS

- One deck, played twice: Prepare, then Combat.
- Push your luck: 3 rolls, plus card rerolls.
- The map grows under your feet.

COMPARABLE BOARD GAMES

- **Pandemic:** co-op too, but no cure, only lasting longer.
- **The Quacks of Quedlinburg:** push your luck too, but the bad roll hits back.
- **Carcassonne:** tiles laid too, but each brings enemies.

Survival Dice-Builder

Hold the base. Dare one more roll.

playtester lens

A2 - L3
2026 - 10 - 05

1 - 4 PLAYERS	not stated AGE	about 90 MIN TARGET, TO BE MEASURED
------------------	-------------------	--

PREMISE

Your village is one tile; the map, a face-down deck. Walk out, gather, build, flip cards, fight what came.

HOW YOU WIN, HOW YOU LOSE

No win yet: score rounds survived plus milestones. The run ends when the base hits 0; knockouts return next round.

Every card is two cards, every reroll a dare, and you make the map by stepping off it.

YOUR ROUND

Base: 7 hexes, 20 health. You start there: 15 health, 1 die.

PREPARE Draw 3, play top halves: move, gather (node spent), build, rest. Step off the edge for 1: reveal a tile, keep walking. Enemies wait.

COMBAT Shuffle the discards, bottom halves up. Enemies move up to 2 hexes, structures first; every spawn node spawns. Roll, keep, reroll, 3 max; dice on Skills fire them. Enemies next to you that are after you hit you. Deck empty: enemies not next to a player hit a structure once: Barricade, then Tower, then base.

Round end: the discard becomes your deck.

COMPONENTS

- 9 hex tiles (1 Base, 3 countryside, 5 core); more to be designed
- Each player: figure, board, 4 Skills, 10 cards (4 Move 2, 4 Gather 2, 1 Build, 1 Rest)
- 28 supply cards, 14 supply Skills
- Dice, miniatures, tokens: counts not stated

WHY IT SELLS

Pandemic meets Dice Throne: one table, more dice.
Carcassonne meets The Quacks of Quedlinburg: lay the map as you walk, every roll a dare.

[designer] · [email]

The Round: Prepare, then Combat

For a playtester, cold

A2-L4
2026-10-05

Defend the base: walk out while enemies stand still, then turn the deck over and hold the line with dice.

THE LOOP

KEY BEATS

- PREPARE** Draw 3, play top halves. A step costs 1, 2 beside an enemy; Gather spends a node printed on the tile.
- PREPARE** Step off the edge for 1: a tile lands under your foot; keep walking until the deck is empty.
- COMBAT** Turn the shuffled discard pile over. Enemies walk up to 2 hexes to the nearest Barricade, Tower or base; every spawn node spawns each Combat.
- COMBAT** Each hand: roll, keep, reroll, 3 rolls at most; cover Skills, fire. Enemies beside you that want you hit you.
- COMBAT** Deck empty: enemies not beside a player hit a structure. **ROUND END** Discard pile, top halves up, is the next deck. Round +1, milestones.

FEEL

Tension	████████████████
Downtime	████████████████
Table talk	████████████████
Luck	████████████████
Planning	████████████████
Designer's estimate, unmeasured.	

Push your luck

- Third roll:** 3 rolls a hand; card rerolls extra.
- The edge:** a new tile spawns next Combat, when nobody moves.
- A node:** one use, then spent.

1 - 4 PLAYERS	20 BASE HEALTH	15 YOUR HEALTH, 1 DIE	10 CARDS IN YOUR DECK: 4 MOVE 2, 4 GATHER 2, 1 BUILD, 1 REST	3 IN HAND	0 BASE HEALTH: RUN OVER
------------------	-------------------	--------------------------	--	--------------	----------------------------

STRATEGIES

- Hold the yard.** Stay on the base tile; Build buys upgrades.
- Ring of walls.** Barricades (2 materials), Towers (4) on the way in; enemies go for them first.
- Hunt.** Walk into enemies (one roll, Skills only): a level is 1 more die for everyone.

To be measured.

INTENDED FEEL

- PREPARE Greedy.** One more step off the edge? The table argues.
- COMBAT Tense.** You cannot move; the hit lands. At 0 health you're knocked out, back at base next round.
- ROUND END A breath.** Score: rounds survived plus milestones.

PERCEIVED VS REAL

Feels hard: the third roll, the detour, the spawn. **Numbers:** to be measured.

The gap: Combat should feel harder than it is, Prepare safer: each tile revealed feeds every later spawn.

To be designed: Skills, knockout, milestones, more tiles.

Survival Dice-Builder

For a playtester sitting down cold

A2 - L5
2026 - 10 - 05

Co-op survival for 1 to 4: ten cards walk you out across the map, then, turned over, decide if the base lasts the night.

Walk, then hold

In **PREPARE** enemies stand still;
in **COMBAT** you cannot move.

Two-faced deck

Top half for Prepare, upside-down
bottom half for Combat.

Push your luck

A third roll, a step off the edge with
enemies about, a node used up:
Combat sends the bill.

THE LOOP

IN TEACH ORDER

- The base:** 7 hexes, 20 health. You start on it: 15 health, 1 die.
 - The deck:** 10 cards (4 Move 2, 4 Gather 2, 1 Build, 1 Rest), hand of 3; each round is Prepare, then Combat: top halves up, then bottom halves up.
 - Dice:** roll, keep, reroll, 3 rolls in all.
 - Skills:** dice cover a Skill's faces to fire it (Strike, Shot, Mend, Guard to start).
 - The end:** base at 0 ends the run; score rounds survived plus milestones.
- To be designed: Skills, knockout, milestones, more tiles.

TARGET PLAYER

1 to 4 at one table who push their luck under a clock.
Open hands, table talk, nothing to read first.

COMPARABLES

- Spirit Island:** co-op defence; here the threat walks at your walls.
- The Quacks of Quedlinburg:** push your luck, here with dice and steps.
- Dice Throne:** dice onto Skills; here the foe is a spawning map.

PRINT-AND-PLAY KIT

- 9 tiles: 1 Base, 3 countryside, 5 core
- 10 starter cards per player
- 28 supply cards, 2 of each
- 14 supply Skills plus 4 starter Skills per player
- dice, tokens, tracks: counts not stated

FIRST PLAYABLE

Two players reach round 5 from the printed kit without its designer.

RISKS (my estimate)

RISK	IMPACT	HOW A PLAYTEST DETECTS IT
Prepare feels safe, Combat unfair.	Nobody steps off the edge.	Count edge steps per round; ask if the hit felt earned.
Three rolls a hand drag at 4 players.	Downtime; table talk dies.	Time each hand; note who looks away.
A spawn every Combat outruns the dice.	The base falls before anyone levels.	Record the round the base fell and the level.

Survival Dice-Builder

Co-op survival dice-builder, 1 to 4 players, one table

Each round: **PREPARE**, grow the map by stepping off its edge; then **COMBAT**, hold the base.

1 - 4
PLAYERS

to be measured
MINUTES

WHY IT SELLS

- 1 to 4 at one table: open hands, table talk
- Top halves Prepare, bottom halves Combat
- 10 starter cards (4 Move 2, 4 Gather 2, 1 Build, 1 Rest), a hand of 3
- The map grows where you dare to step
- 1 die to start, 1 more every level
- Every spawn node spawns every Combat
- Enemies go for your structures first
- Base at 0: the run ends; score rounds + milestones

SHELF NEIGHBOURS, AND THE GAP

A3-L2
2026-10-05

1 - 4

PLAYERS

to be measured

AGE

to be measured

MINUTES (TARGET 90)

COMPONENTS IN THE BOX

- **9 map tiles:** 1 Base, 3 countryside, 5 core (final content in progress)
- **Per player:** board, figure, 1 action die, 4 starter Skills, 10-card deck (4 Move 2, 4 Gather 2, 1 Build, 1 Rest)
- **Action dice:** Sword, Wand, Bow, Shield, Star, Blank (count: final content in progress)
- **28 supply cards, 14 supply Skills** (final content in progress)
- **Base board:** health, upgrade, round tracks
- **Grunt and elite miniatures** (map limit 20)
- **Barricade, Tower, material, currency tokens** (counts: final content in progress)

GAME SUMMARY

Beginning. Base tile alone at 20 health; each figure on it: 15 health, one die, ten cards. No enemy out.

Middle. Each round plays the deck twice.
Prepare: walk, reveal land, gather, build. Combat: nodes spawn, enemies march, dice go onto Skills.

End. Base at 0: the run ends. Score rounds survived plus milestones.

GAME OUTLINE

Setup. Base tile alone; shuffled countryside tiles atop core tiles form the tile deck. Figures on base hexes. Base 20, players 15, 1 die.

PREPARE Draw 3 and play top halves until the deck is empty. A step off the map edge reveals a tile for 1 and you may keep walking. Gather spends its node. Build a defense or a base upgrade. Enemies stand still.

COMBAT The shuffled discard pile turns bottom halves up. Enemies move up to 2 hexes toward the nearest structure; every spawn node spawns; Towers fire. Until the deck is empty: draw 3, roll up to 3 times, play bottom halves, cover Skills with dice, take hits from enemies targeting you. Deck empty: each enemy not next to a player hits an adjacent structure once.

Round end. Discard pile turns top halves up: the next Prepare. Count the round, check milestones; knocked-out figures return.

UNIQUE SELLING POINTS

- One deck, two faces: top halves plan in Prepare, bottom halves fight in Combat.
- Every revealed tile spawns every Combat: greed for land is the push-your-luck.
- Each level adds a die to every player.
- Enemies go for your walls first: building is defending.
- True co-op: open hands, shared experience, nobody sits out.

COMPARABLE BOARD GAMES

- **Spirit Island:** co-op defence on a map you expand yourself.
- **Pandemic:** table talk against a threat your own exploring paces.
- **The Quacks of Quedlinburg:** push-your-luck, but shared and paid for in Combat.

Survival Dice-Builder

Co-op survival: the deck turns over, the dice pile up.

A3-L3
2026-10-05

1 - 4

PLAYERS

to be measured

AGE

about 90 min target

TO BE MEASURED

PREMISE

Your village is the only tile out: step off its edge, the next tile turns over for 1, and you keep walking to gather (each node is spent once) and build. Every Combat, every revealed spawn node sends a new enemy, and enemies march up to 2 hexes, structures first.

HOW YOU WIN, HOW YOU LOSE

No win yet: score rounds survived plus milestones (final set in progress). You lose when the base hits 0 health; a fallen player returns next round.

THE HOOK: every card you buy is a plan on top and a weapon underneath, and the map only exists where someone dared to step.

COMPONENTS: final content in progress

- **9 map tiles:** 1 Base tile, 3 countryside, 5 core
- **Per player:** board, figure, health track (15), 1 action die, 4 starter Skills, 10-card deck (4 Move 2, 4 Gather 2, 1 Build, 1 Rest), hand of 3
- **Action dice,** 6 faces: Sword, Wand, Bow, Shield, Star, Blank
- **28 supply cards** (14 kinds, 2 each), **14 supply Skills**
- **Base board:** health (starts at 20), upgrade and round tracks
- **Grunt and elite miniatures**
- **Barricade and Tower pieces, material and currency tokens**

WHY IT SELLS

Co-op survival and dice-builders sit on separate shelves; this is both.

- **Pandemic meets Dice Throne:** shared-crisis table talk, but everyone's dice grow at once.
- **Carcassonne meets Spirit Island:** you lay the map, and every tile spawns against you.

Designer contact: to follow.

The Round: Prepare, then Combat

Replayed until the base falls; score: rounds survived plus milestones

A3-L4
2026-10-05

ONE DECK, TWO FACES: top halves up to walk out and build; flipped, to hold the line with dice.

THE LOOP

KEY BEATS

- PREPARE** Draw 3, play top halves: Move, Gather (node then spent), Build, Rest.
- PREPARE** Step off the edge for 1: a tile lands underfoot; keep walking.
- COMBAT** Enemies walk up to 2 hexes toward the nearest structure; every spawn node spawns.
- COMBAT** Hand of 3: roll, keep, reroll (up to 3 rolls); dice onto Skills; enemies hunting you hit. Deck empty: each enemy not next to a player hits an adjacent structure once.
- ROUND END** Discards turn over as the next deck; round +1; fallen figures return.

FEEL OF A ROUND

Tension

Downtime

Table talk

10

CARDS: 4 MOVE 2, 4 GATHER 2, 1 BUILD, 1 REST; HAND OF 3

28

SUPPLY CARDS; TILES, SKILLS: FINAL CONTENT IN PROGRESS

THREE WAYS TO PLAY

- Turtle:** never leave the Base tile; Build only upgrades.
- Wall-builder:** Barricades (2) and Towers (4) take the hits, not people.
- Lure:** stand 2 or more hexes nearer than any structure; levels for everyone.

INTENDED FEEL

- PREPARE** **Appetite.** A quiet map; every edge is a tile.
- COMBAT** **Siege.** Feet planted; the base takes what you miss.
- ROUND END** **Audit.** Milestones, a bigger deck, one more round.

FEELS HARD VERSUS IS HARD

FEELS HARD	NUMBERS SAY
A Blank on the third roll	to be measured
Every spawn node, every Combat	to be measured

The gap: Prepare feels safe, Combat feels deadlly; which phase really ends runs is to be measured.

Shelf gap: co-op survival grows card pools, dice-builders are duels; this is both, on a map laid as you walk.

Spirit Island: the threat is miniatures at your walls; you grow in dice.

Dice Throne: the same roll, keep, reroll; here the table fights together.

Carcassonne: a tile lands where you step; its enemies come next Combat.

TIME TO BE MEASURED

PILLARS

1 DEFEND TOGETHER
One base, 20 health, shared by the whole table; the run ends at 0.

2 GROW OR FALL
Bought cards join your deck; each shared level gives everyone one more die.

3 PUSH YOUR LUCK
Roll, keep, reroll, up to 3 rolls. Step off the map edge for 1 to reveal a tile, keep moving.

CORE LOOP

Prepare, then Combat, nothing else. Gathered nodes are spent. In every Combat enemies move up to 2 hexes, structures first, and every spawn node spawns: the map you reveal is the pressure you accept.

TARGET PLAYER

1 to 4 players who want a co-op fight with open hands.
Solo: one person at the table, the full game.

COMPARABLES: THE SHELF GAP

- Spirit Island:** co-op defence, but here resolved with dice and a 10-card deck.
- The Quacks of Quedlinburg:** the same push-your-luck itch, pointed at one shared base.
- Carcassonne:** a tile-by-tile map, but every new tile spawns enemies every Combat.

PRINT-AND-PLAY KIT

- 9 tiles: 1 Base, 3 countryside, 5 core (final content in progress)
- 10 starter cards per player: 4 Move 2, 4 Gather 2, 1 Build, 1 Rest
- 28 supply cards: 14 designs, 2 copies each
- 14 supply Skills plus 4 starter Skills per player (final content in progress)
- Action dice, 6 faces; 1 each to start; count final content in progress
- Material, currency, Barricade, Tower tokens; health tracks; counts final content in progress

FIRST PLAYABLE: four people play with 9 tiles, 10 cards, 15 health and 1 die each until the base falls; score rounds survived plus milestones.

RISKS

RISK	IMPACT	HOW A PLAYTEST DETECTS IT
Runs end before anything grows.	A dice fight, not a builder.	Log end round and cards bought per run.
Run length unknown.	No session time for the box.	Time every round in 1-, 2- and 4-player runs.
Co-op downtime: 3-roll turns.	One voice decides.	Time each turn in 4-player runs; ask who decided.
